by providing fundamental training at their fingertips.

The course library is securely
housed on the cloud and
accessible anywhere

Market and sell over 1,500
premium safety training
courses to your clients

High quality eLearning
courses that will meet the
needs of your clients

Course titles from many of the leading content providers in North America.

OSHA Standards

Occupational Safety and Health Administration (OSHA) is part of the United States Department of Labor. The leading authority in compliance and safety standards for the United States.

Our company works with leading course providers like:

- ✓ JJ Keller
- ✓ Safety Provisions
- ✓ Vivid
- ✓ UL

We give our customers access to over one thousand online courses, including titles that are developed to follow OSHA standards in efforts to ensure your workforce is compliant and safe.

Extensive Course Selection

Thanks to our wide range of partnerships, we can provide access to some of the most current training from esteemed providers. These top of the line courses are created using unique combinations of multimedia elements and may feature:

High-Impact Videos

Engaging Exam Questions

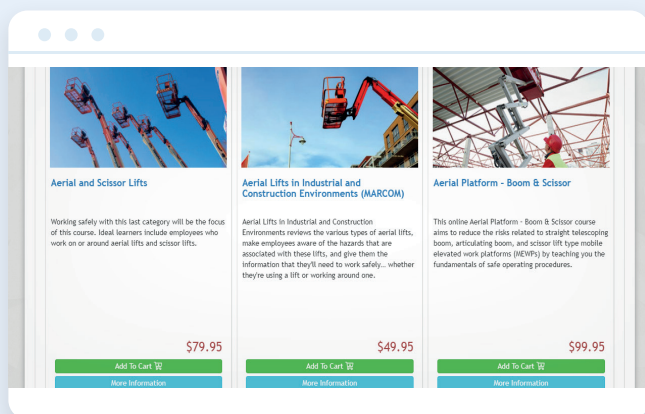

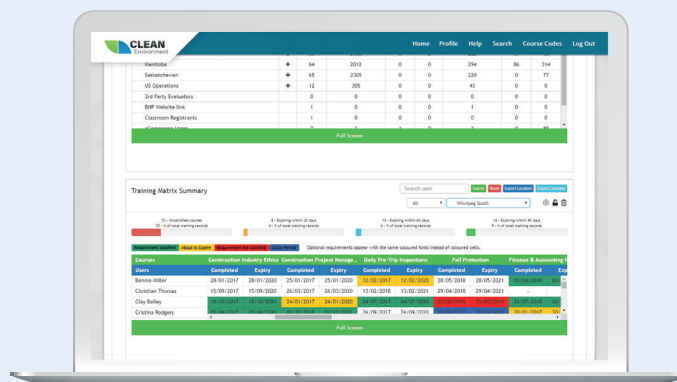

Interactive Games

Multilingual Options

API/SSO

Application Program Interface (API) and Single Sign-On (SSO) integration allow your existing LMS to integrate seamlessly with our entire content library. Users click the course link in your LMS, then the course plays in a popup window. Once the work is complete, our system transfers the course completion data directly into your LMS, including a copy of the certificate.

An Ever-Expanding Course Library

The course library available through Bistrainer is continually growing as additional partners join the SafetyNET network. All of these courses are available to you and your company to sell to your clients. Join the growing network with over 1,500 high quality safety and training courses, and provide your clients with some of the highest quality training available.
