Permission Management

► Notification System

The best part of the foldering system is the automatic notifications. When new policies, procedures, forms, or other documents are uploaded to a folder, notifications are sent to users letting them know that new or updated items are available for review and sign off.

► Folder Assignment

With the ability to grant folder access by employee, company role, location, or a combination of role and location, Digital Folders help your company reach new levels of compliance while reducing administrative costs.
