Utilize our robust **Learning Management System** to build, host, and deliver your own online courses, tests, and surveys through our secure course player and exam engine.

BISsafety.com

An elegant & robust content solution

Our enterprise-level Learning Management System allows you to quickly and easily create engaging training material using a wide variety of SCORM and multimedia files. Once your content is built and the desired course options are set, you can easily assign it to your employees using access codes, the integrated training matrix, or individual, location, or role-specific permissions.

CLEAN

Compatibilities

SCORM 1.2 and 2004

Upload SCORM 1.2 and 2004 files developed with popular authoring tools, including Trivantis Lectora, Adobe Captivate, and Articulate Storyline 360.

Mainstream Media and Presentation Files

Easily create custom courses using a wide variety of popular file types, including images, videos, PDFs, and PowerPoint presentations.

Full Customization

0	\rightarrow				
∕_					

Randomize questions and the order of answers to improve exam security.

Upload hundreds of questions in seconds using the uploader template.

Download printable exams and answer keys for classroom use.

Features

Course Virtual Proctoring

Customizable Certificates

YouTube Integration & Vimeo Playback

Form

Document Uploader

Our document uploader allows users to upload their driver documentation and training certificates directly into an online course while completing it! These documents are sent to an administrator for approval. Once approved, the documents are used to fulfill a training topic and remove the associated requirement from the training gap report.
